Limited-Time Pepco & Delmarva Power Electrification Incentive Increase

We're excited to announce a **Limited-Time Offer (LTO)** for qualifying HVAC electrification measures under the Pepco and Delmarva Power Residential Midstream HVAC program. For equipment installed between **May 15th and August 15th**, increased incentives will be available for eligible electrification installations.

Invoices must include the LTO instant discount to the customer and must be deducted at the time of purchase. Applications must be submitted in the Online Intake Tool no later than **September 15th, 2026**. Applications submitted after this date will not receive the LTO incentives.

Electrification Equipment	Tier	Efficiency Levels		Current Incentive Amounts	LTO Incentive Amounts
		SEER2	HSPF2	PEPCO & Delmarva Power	PEPCO & Delmarva Power
NON COLD CLIMATE Air Source Heat Pump and Ducted or Mixed Mini Split	1	15.2	6.7 Packaged	\$1,950	\$3,950
	2	16.9	7.5 Split	\$2,450	\$4,450
NEW - COLD CLIMATE* Air Source Heat Pump	3	15.2	8.1	\$3,450	\$5,450
Nonducted Heat Pump	Multi-Zone	15.5	7.5	\$3,450	\$4,450

Please note: Incentives are available while funds last and will be managed within the approved budget on a first come first serve basis.
